

# RESPECT THE SEA BE A GOOD CAPTAIN

# RESPECT THE SEA BE A GOOD CAPTAIN

- 1- Make sure your belongings and other objects are properly secured to the boat before going to sea, so as to avoid them flying offboard.
- 2- Use biodegradable sunscreen
- 3- If you smoke on board, don't throw your cigarette butts or lighters in the sea or in the harbour.
- 4- Don't throw plastic bags or containers in the sea.
- 5- Don't discharge organic waste in the sea because the currents will carry them ashore and they are unpleasant!
- 6- Bring back all your waste.
- 7- Please pick up as much floating plastic as you can, to avoid the marine fauna ingesting it.
- 8- Don't throw oil or fuel into the sea; please place those liquids in jerrycans or bottles and bring them back to land.
- 9- When filling your tank with fuel try to avoid spillages.
- 10- **NEVER** anchor the boat on Posidonia. (Neptune grass or Mediterranean tapeweed)
- 11- **CLEAN YOUR BOAT WITH BIODEGRADABLE - NOT CHEMICAL - PRODUCTS** compatible with the marine environment
- 12- Use biodegradable soaps and shampoos on board - **AVOID PARABEN**
- 13- When carrying out maintenance work on your boat, don't throw paint and varnish flakes into the sea: please collect them to the extent possible and dispose of them appropriately, to avoid toxic microparticles being ingested by marine fauna.
- 14- If you take your dog ashore, please pick up their poos
- 15- If you go ashore and relieve yourself, don't leave toilet paper, sanitary pads tampons or their packaging!
- 16- If at sea you find a turtle caught up in a net, immediately **CALL 112**. Don't try to free it yourself as the animal probably needs specialised medical attention before being released.
- 17- Please comply with existing legislation on recreational fishing - you may need to check it out first - and respect the specific regulatory framework applicable to the marine reservations of the Northern coast, the Illa del Aire and the Natural Parc of Es Grau.
- 18- Respect the environment - see EU legislation on **NATURA 2000** as well as **LIC** and **ZEPA** areas - and other boats. Avoid playing loud music near the port or beaches.
